3) Treatment Resources on Google Drive: Using the current area treatment google account, we have set up a google drive to store treatment resources to support district treatment committee chairpersons in their treatment work. On the back of this report is a map of the resources currently available. The link to access this drive is below. It is open to any AA member to use as a resource in treatment work.

4) Next Area 48 Treatment Committee Chairperson: Only one person has indicated a willingness to stand for the position, Steve A.- the current district 1 treatment committee chairperson. Current district treatment chairpersons have indicated that they support him and are happy to have him as the new area 48 treatment committee chairperson starting next year. Thank you Steve for your service.

Please contact your local District Treatment chairperson or the Area 48 Treatment Committee if you or your AA group is interested in supporting treatment facilities in your local district by being a speaker, donating literature, or supporting an ongoing meeting on a regular basis. Please let us know if you have any suggestions on how we can support the already great treatment work that is being done at the district level.
